

LMS Test Cases

Module: Student Registration (R1)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_REG_001	R1	TS001	Verify registration with valid details	Registration page available	1. Enter valid Name 2. Enter valid Email 3. Enter valid Mobile Number 4. Enter valid Password 5. Click Register	Name=John, Email=john@test.com, Mobile=9876543210, Password=Pass@123	Student account created successfully
TC_REG_002	R1	TS002	Verify registration with blank Name	Registration page available	Leave Name blank and submit	Name=Blank	Appropriate validation message displayed
TC_REG_003	R1	TS002	Verify registration with blank Email	Registration page available	Leave Email blank and submit	Email=Blank	Validation message displayed
TC_REG_004	R1	TS003	Verify registration using existing email	Existing user already registered	Enter already registered email and submit	john@test.com	Duplicate email error displayed
TC_REG_005	R1	TS004	Verify password minimum length validation	Registration page available	Enter password less than minimum length	Pass12	Password policy validation displayed

Module: Student Login (R2)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_LOGIN_001	R2	TS005	Verify login with valid credentials	Registered user exists	Enter valid email and password and click Login	student@test.com / Pass@123	User logged in successfully
TC_LOGIN_002	R2	TS006	Verify login with invalid password	Registered user exists	Enter valid email and invalid password	student@test.com / Wrong123	Error message displayed
TC_LOGIN_003	R2	TS006	Verify login with invalid email	Registered user exists	Enter invalid email and valid password	wrong@test.com	Error message displayed
TC_LOGIN_004	R2	TS006	Verify login with blank email	Login page available	Leave email blank and submit	Blank	Validation message displayed
TC_LOGIN_005	R2	TS007	Verify account lock after maximum failed attempts	User account exists	Enter incorrect password repeatedly	Invalid Password	Account locked after defined attempts

Module: Forgot Password (R3)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_FP_001	R3	TS008	Verify forgot password link	User account exists	Click Forgot Password and submit email	student@test.com	Password reset email sent
TC_FP_002	R3	TS009	Verify password reset using valid link	Reset email received	Open reset link and set new password	Pass@456	Password updated successfully
TC_FP_003	R3	TS010	Verify expired reset link behavior	Reset link expired	Open expired link	Expired Link	Appropriate error displayed

Module: Course Search (R4)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_SEARCH_001	R4	TS011	Verify search with valid keyword	Courses available	Enter keyword and search	Python	Relevant courses displayed
TC_SEARCH_002	R4	TS012	Verify search with partial keyword	Courses available	Enter partial keyword and search	Pyt	Matching courses displayed
TC_SEARCH_003	R4	TS013	Verify search with invalid keyword	Courses available	Enter non-existing keyword	XYZ123	No results message displayed

Module: Course Enrollment (R5)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_ENROLL_001	R5	TS014	Verify successful course enrollment	User logged in	Select course and click Enroll	Python Course	Enrollment successful
TC_ENROLL_002	R5	TS015	Verify duplicate enrollment prevention	Course already enrolled	Attempt enrollment again	Python Course	Duplicate enrollment error displayed
TC_ENROLL_003	R5	TS016	Verify enrollment for unavailable course	Course unavailable	Attempt enrollment	Inactive Course	Enrollment restricted

Module: Dashboard (R6)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_DASH_001	R6	TS017	Verify enrolled courses displayed	User enrolled in courses	Open dashboard	Existing User	Enrolled courses visible
TC_DASH_002	R6	TS018	Verify dashboard data accuracy	User enrolled in courses	Compare dashboard data with enrollment records	Existing User	Data displayed correctly

Module: Progress Tracking (R7)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_PROG_001	R7	TS019	Verify progress updates after course completion	User enrolled	Complete lesson	Lesson 1	Progress percentage updated
TC_PROG_002	R7	TS020	Verify progress calculation accuracy	User completed lessons	Check percentage displayed	Completed Lessons	Correct percentage shown

Module: Certificate Download (R8)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_CERT_001	R8	TS021	Verify certificate generation after completion	Course completed	Generate certificate	Completed Course	Certificate generated
TC_CERT_002	R8	TS022	Verify certificate download	Certificate available	Click Download	Generated Certificate	Certificate downloaded successfully
TC_CERT_003	R8	TS023	Verify certificate restriction before completion	Course incomplete	Attempt certificate download	Incomplete Course	Download restricted

Module: Instructor Course Creation (R9)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_INST_001	R9	TS024	Verify instructor can create a course with valid details	Instructor is logged in	1. Navigate to Create Course page 2. Enter course details 3. Click Save	Course Name=Python Basics, Category=Programming, Duration=10 Hours	Course created successfully
TC_INST_002	R9	TS025	Verify mandatory field validation when Course Name is blank	Instructor is logged in	1. Open Create Course page 2. Leave Course Name blank 3. Click Save	Course Name=Blank, Category=Programming	Validation message displayed for Course Name
TC_INST_003	R9	TS025	Verify mandatory field validation when Description is blank	Instructor is logged in	1. Open Create Course page 2. Enter Course Name 3. Leave Description blank 4. Click Save	Course Name=Python Basics, Description=Blank	Validation message displayed for Description

TC_INST_004	R9	TS025	Verify course creation with maximum allowed title length	Instructor is logged in	1. Enter maximum length course title 2. Save course	Course Name=100 Characters Long Title	Course created successfully
TC_INST_005	R9	TS026	Verify instructor can publish a draft course	Draft course exists	1. Open draft course 2. Click Publish	Course Status=Draft	Course status changed to Published
TC_INST_006	R9	TS026	Verify unpublished course is not visible to students	Draft course exists	1. Create draft course 2. Login as student 3. Search course	Course Status=Draft	Course should not appear in search results

Module: Admin User Management (R10)

TC ID	Req ID	Scenario ID	Test Case Description	Preconditions	Test Steps	Test Data	Expected Result
TC_ADMIN_001	R10	TS027	Verify admin can view all users	Admin is logged in	1. Navigate to User Management page	Admin Account	Complete user list displayed
TC_ADMIN_002	R10	TS028	Verify admin can deactivate a user	Active user exists	1. Open User Management 2. Select active user 3. Click Deactivate	User ID=STU1001	User status changed to Inactive

TC_ADMIN_003	R10	TS029	Verify deactivated user cannot login	User is deactivated	1. Open Login page 2. Attempt login	Email=student1@test.com, Password=Pass@123	Login denied with appropriate message
TC_ADMIN_004	R10	TS030	Verify admin can reactivate a user	User is deactivated	1. Open User Management 2. Select inactive user 3. Click Activate	User ID=STU1001	User status changed to Active
TC_ADMIN_005	R10	TS027	Verify admin can search for a user by email	Admin is logged in	1. Navigate to User Management 2. Search by email	student1@test.com	Matching user displayed
TC_ADMIN_006	R10	TS028	Verify confirmation message before user deactivation	Active user exists	1. Click Deactivate on a user	User ID=STU1001	Confirmation popup displayed
TC_ADMIN_007	R10	TS030	Verify reactivated user can login successfully	User reactivated	1. Open Login page 2. Enter credentials 3. Login	student1@test.com / Pass@123	Login successful
TC_ADMIN_008	R10	TS027	Verify user list displays correct user details	Admin is logged in	1. Open User Management page	Existing Users	Name, Email, Status displayed correctly
